

Ready to get involved? SCPOR provides several supports and opportunities for Patient Partners to maximize their potential for success. Learn about some of the tools, courses and supports that Patient Partners may be interested in. Visit [www.scpor.ca](http://www.scpor.ca) to learn more!

## The Patient & Researcher Connection Site

The Patient & Researcher Connection Site is an online tool that links patients, families, and communities with patient-oriented research projects.

Are you interested in shaping health research in Saskatchewan? Check out the opportunities for Patient Partners and participants in research. And be sure to [sign up for email notifications](#) when new opportunities are posted!

Visit [patientandresearcherconnection.ca](http://patientandresearcherconnection.ca) to learn more and start connecting!

## Training Sessions, Events and other Learning Opportunities

SCPOR offers a variety of training sessions, events and webinars throughout the year. Patient Partners are welcome to attend these events, and are invited to visit [scpor.ca/upcoming-events](http://scpor.ca/upcoming-events) to stay up to date with upcoming opportunities. Consider taking advantage of regular training opportunities for Building Research Relationships with Indigenous Communities, as described below:

### Building Research Relationships with Indigenous Communities

This module will provide participants with practical skills for engaging in transformative research with Indigenous peoples that utilizes best practices to ensure research is effective and produces outcomes that benefit Indigenous communities.

## Stay connected with SCPOR!

[Sign up for the monthly SCPOR newsletter, the SCPOR report](#) where you will be updated on news & updates, calls, events & training opportunities, feature research taking place and what our partners in the Strategy for Patient-Oriented Research are doing across Canada!

Stay up-to-date by following us on social media! Be the first to know about events, award calls and more on [Facebook](#), [Twitter](#) & [YouTube](#)!
